

# Wellness Plans

*As part of our ongoing commitment to improving and extending the bond our clients share with their pets, we are offering wellness plans for pets of all ages. This makes it as easy as possible to provide optimal care from the time your pet is a puppy or kitten into their senior years. Below are our core beliefs regarding wellness plans:*

## Proactive Care

A schedule of essential diagnostic screenings, vaccines, and treatments keeps your four-legged friend on a healthy path.

## Pets Age Faster

Every 6 months equals several human years for pets, making bi-annual head-to-tail examinations a top priority.

## They Can't Tell Us

Our pets can't tell us when something is wrong. Hiding the symptoms of illness or injury is part of their innate behavior. Bi-annual examinations and diagnostic screenings do the talking for them.

## Sometimes A Budget Saves Lives

We believe in honoring your bond with your trusty sidekick by doing our utmost to keep them happy and healthy. That's why we offer preventive care plans with manageable monthly payments that you can work into your budget. Our goal is to make the cost of optimal wellness more affordable for pet parents.

***Please let any of our team members know if you have questions about our preventive care plans program or would like to enroll your pet.***

***Sincerely,  
The Veterinarians at Town & Country Veterinary Clinic***
